# Hello!

Thank you for your purchase.

Follow the instructions below to get started.

Note: The TouchOne must be connected to a local network via WiFi and have Internet access to install this application.
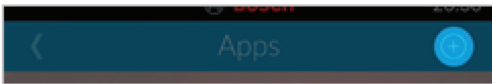

1. From the TouchOne's standby screen, ensuring all areas of the panel are disarmed, tap the "Settings" button.
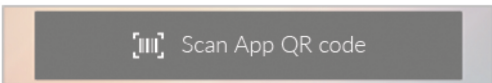

| ⊕ Keypad	⚙ Settings

2. Tap "Apps"

Apps	⟩

3. Tap (+) to add a new App

‹	Apps	⊕

4. Tap "Scan QR code" (TouchOne only).

[⟦⟧] Scan App QR code

or Tap "Add App manually" to enter the code in manually (only option on TouchOne Mini).

⊕ Add App manually

Follow the on-screen instructions to complete installation.

Visit **mytouchone.com/manuals** for instructions to configure the intercom hardware.
